World-class campus

Our 128-acre Campus, 19 of them with green areas, offers a both protected and scenic environment surrounded by the Andes Mountains. UANDES is located in the northeast part of Santiago and is 25 minutes away from downtown. The state-of-the -art buildings and facilities offers students all they need for a great experience.

A person oriented environment

The International Office counts with active and flexible staff that will provide an interesting and learning experience. All groups count with a Student coordinator that will assist and orient at any minute. Our Faculty and guest speakers also enjoy having students from abroad to share their ideas and knowledge.

Program Quality

Our programs include lectures with experts in their fields, meetings with stakeholders and visits to key public and private institutions. Students will learn from top national and international specialists and will be invited to discuss and propose their ideas.

2- GO UANDES - GLOBAL OPPORTUNITIES

ONGOING PROGRAMS

The Global Opportunities programs at UANDES offer both incoming and UANDES students the chance to meet international peers in a great academic environment. The GO UANDES programs aim to get together students from different countries and learn actively through various methods as classes, field trips, joint projects, among others.

These are intensive and real life-changing experiences, where international students learn from local faculty and students and for them it is a great opportunity to experience their own country with foreign eyes and practice their English.

The International Relations coordinates these programs which are completely delivered in English, so students and Faculty without the language knowledge can participate.
