Campus

Located in the northeast side of Santiago de Chile, our Campus combines modern infrastructure with green areas, where students can find all they need for learning, research, sports, and extracurricular activities. At **Universidad de los Andes**, we believe that education is based on freedom, personal responsibility, a spirit of cooperation and solidarity. This combined with rigorous professional training molds the type of leaders society needs.

The University aims to cultivate all areas of knowledge in a scientific spirit with an open and respectful dialogue amongst people. Universidad de los Andes encourages the passion to transform ordinary everyday work into something extraordinary with the eagerness to serve others and the community, inspired by the spirit of the Prelature of Opus Dei, which is the guarantor of the Christian formation that is imparted at the University.

Universidad de los Andes also has the *Centro de Salud Universidad de los Andes*, a 30 sq. ft. outpatient medical facility located in San Bernardo, where patients are treated in the areas of General Medicine, Psychology, and Dentistry. It also houses classrooms for the Medicine, Nursing, Psychology, and Dentistry students.

- * 128 acre **Campus** located in San Carlos de Apoquindo
- * 19 acres of **green areas**
- * 5 **buildings**
- * 78 **classrooms**
- * 37 **laboratories**

- * **Art Museum**
María Loreto Marín Estévez Collection
- * Future University **Clinic** (2013)

Only University Campus nationwide with its own recycling and waste management system, with seven stations installed near each building.

Undergraduate Programs

HEALTH STUDIES

- Medicine
- Nursing
- Psychology
- Dentistry
- Kinesiology
- Occupational Therapy

BUSINESS AND ADMINISTRATION STUDIES

- Business
- Service Management

ENGINEERING STUDIES

- Industrial Engineering:
 - Specialization in Operation Management
 - Specialization in Finance
 - Specialization in Transportation
- Electrical Engineering:
 - Specialization in Robotics
- Civil Engineering:
 - Specialization in Structures
 - Specialization in Transportation
- Computer Engineering

HUMANITIES STUDIES

- Law
- Philosophy
- Education
 - Early Childhood Education
 - Elementary Education
 - High School Education
 - High School Education in History
- Journalism
- History

BACHILLERATO

- One year associated program
 - Science
 - Humanities
 - Economy and Society

Minors (starting 2012)

ECONOMICS AND BUSINESS

- Minor in Service Management
- Minor in Accounting
- Minor in Organizational Psychology
- Minor in Business and Law

LIBERAL ARTS

- Minor in Literature
- Minor in Art History
- Minor in Classic Greek Studies
- Minor in Classic Latin
- Minor in Classic Greek

- Business Taxation
- Health Law
- Media Management

International Relations

STUDENT EXCHANGE / STUDY ABROAD

Universidad de los Andes encourages student and faculty exchange and has thus welcomed European, North and Latin American students from many of the 51 universities with whom we have exchange agreements. Our students and professors have also gone on exchange programs to Australia, France, Spain, Austria, Germany, Belgium, Mexico, Peru and USA, among other countries.

Orientation>

The International Relations Office hosts orientation activities for all International Students. Additional meetings and trips are organized throughout the year.

Language Requirements>

Intermediate level of Spanish recommended (B2 Level)

Term Dates>

First Semester: March to July (exams included)

Second Semester: August to December (exams included)

FACULTY EXCHANGE

The International Relations Office coordinates faculty exchange or joint projects between Universidad de los Andes and other foreign universities.

SPECIAL PROGRAMS

Universidad de los Andes hosts tailor-made programs for universities with or without an agreement. These courses can include workshops and fieldtrips, cultural events with Chilean students, and conferences with special guest speakers.

SPANISH AS A FOREIGN LANGUAGE

Universidad de los Andes offers international students the possibility of learning or improving their Spanish skills in a cultural and academic environment. Our immersion program provides the necessary tools to interact with and comprehend the Latin-American Culture with a practical approach.

Student Services

On-Campus Facilities> Indoor and outdoor sports facilities, cafeterias in all buildings and copy centers. All students are given a personal password to access all computer labs. Wi-fi is also available.

Library> With state-of-the-art technology, comfortable study areas and versatile spaces, our Library is the ideal place for study and research.

Student Life> *Vida Universitaria* is Universidad de los Andes' "Student Life" office that coordinates extracurricular activities on and off campus. Its departments are: **Student Services, Sports and Health, Culture, Innovation and Entrepreneurship.**

Housing> Universidad de los Andes coordinates off-campus housing for all incoming students. According to their requirements, we can recommend homestay with Chilean families, residences or apartments.

Academic Advising> International students can receive academic counselling throughout the semester.

Buddy Program> Each international student will be assigned a "buddy" who will orientate and help in the integration process.

Research

Universidad de los Andes has the firm commitment to constantly contribute towards development through research and innovation.

- More than 190 research projects have been funded by UANDES.
- Another 107 projects have been funded by the Chilean Fund for Science and Technology (Fondecyt).
- 50 scientific papers published in ISI and 62 in Scielo during 2010, which represents an increase of 55% comparing to 2009.
- Professors are constantly collaborating in major international research projects.
- The UANDES Research Fund through its contributions and donations also supports the development of other university activities.

Sports at UANDES

University Clinic

Clínica Universidad de los Andes will be operational in 2013 with the most advanced scientific technology and facilities, offering the community full integral medical services focusing on the dignity of each patient and their family.

With 55.000 sq. mts constructed in the first stage of the project, the building will be structured in three general areas: Administrative and Medical Offices; Center of Diagnosis and Treatment and Hospitalization.

The Clínica will further develop all graduate studies in the Health related programs the University has: Medicine, Nursing, Psychology, Dentistry, Kinesiology and Occupational Therapy; offering the necessary conditions for the continuous development and specialization of all professionals.

“With this project, we hope to attract high qualified professionals eager to research in all health areas which will contribute to the development of health policies for our country.”

— Orlando Poblete, Rector Universidad de los Andes

Chile

Pablo Neruda (Chilean poet) described his beloved country as a “large petal of sea, wine, and snow.”(Cuando de Chile, 1943). Chile is a long and narrow country nestled between the Andes Mountains and the Pacific Ocean, and is home to 17 million citizens. Chile stretches from the Atacama Desert, the driest in the world, to the glaciers of Patagonia.

Santiago, capital of Chile, is a thriving and interesting city. With a population of six million, it offers a variety of attractions and activities. You will find a modern city reflected in state-of-the-art buildings, subway, and museums. Santiago also offers you the possibility to be part of a community that enjoys celebrating its national traditions along with other outdoor activities.

Santiago is located an hour and a half away from Valparaíso, a coastal city that UNESCO identified as a World Heritage Site, and an hour away from several internationally known ski centers. It can also be the starting point for travelling throughout South America; you can reach Buenos Aires in two hours, and Lima in three hours, with numerous flights departing daily.

Why choose Chile?

- * Economic and Political **Stability** (Chile’s government is a Representative Democracy)
- * **Quality** education
- * **Affordable** cost of living
- * Climate of Santiago: **Mediterranean** (warm dry summers/cold rainy winters)
- * Transportation: Bus, Subway, Taxi
- * Great tourist **attractions**
- * **Volunteer** activities
- * Active Social and Cultural life
- * **Multi-sport** options

Testimonials

Mark Leventhal, student from United Kingdom.

Getting to know different people, with their own lifestyle and culture, was an enriching experience. I think I will never forget what I have learned in Chile.

Professor Diego Restrepo, Universidad CES, Colombia.

At UANDES you don't feel as a guest, but as a member of the university community, which is essential if you are conducting joint projects.

Professor Jon Stewart, Søren Kierkegaard Research Centre, Denmark.

I was positively impressed by the commitment and the high academic level that I saw in my colleagues and students at Universidad de los Andes.

Marcela Ferraz Viana and Verónica Carraro, students from Brazil.

When you decide going abroad, you should be prepared to face differences. It may be difficult at the beginning or you can miss home, but the experience of meeting new people and learning so much is worth it!
