

GO SUSTAINABILITY & ENVIRONMENT: BLENDED PROGRAM

A blended program is an educational methodology that combines online experiences with the traditional presential classes on campus. This means that the program will be divided into two parts:

ONLINE: ENVIRONMENT AND SUSTAINABLE DEVELOPMENT CHALLENGES

JOIN US ONLINE.

christianworshipcenter.com

THE FIRST WEEK OF THE PROGRAM WILL BE HELD IN JANUARY FOR 5 CONSECUTIVE DAYS IN AN ONLINE FORMAT.

This week will cover interesting topics and group activities so that all members can get to know each other and share their knowledge and experiences on the subjects.

5 ONLINE SESSIONS DISTRIBUTED FROM MARCH-JUNE

All the participants can continue learning and preparing for the presential section. There will be workshops by experts on each topic and dialogues between students in the classes and seminars. The purpose of these sessions during the semester is to enhance networking, contact and connection between the participants, and therefore, to form a consolidated group that, in July, will be able to visit our Campus.

ON CAMPUS: LEADERSHIP AND ITS ROLE WITH THE ENVIRONMENT

THE SECOND PART OF THE PROGRAM WILL TAKE PLACE IN JULY 2021 FOR TWO WEEKS.

During this time, all the students will meet again to continue studying and training in Sustainability and Environment. Great experts and professors will teach topics such as ecology, ecotourism, recycling, among others. There will be face-to-face debates in our auditoriums and interesting group activities. One of the best parts of these weeks is that the students will have the opportunity to visit unforgettable places inside and outside our city. Also, there will be activities such as "The Chilean lunch," "Gymkhana," and our iconic Debate, among others. All of the above is included in the initial price that each student will pay. Our campus and its professors are looking forward to welcoming you. The modern buildings and large green spaces will be waiting for you.
