WELCOME

Welcome to Universidad de Los Andes library! The library team is proud to offer you a space specially designed to enrich your learning, research, and cultural experience.

Our commitment is to provide access to valuable information and learning resources as well as personalized service that will support you through your academic journey. We invite you to discover and make the most of all the opportunities our library offers, like getting to know and reaching out to the librarians specialized in your academic areas.
Visit us at **www.uandes.cl/biblioteca.**

We are here to assist you and make sure that you find all the resources you need.

We look forward to seeing you!
Carolina Melo
Library Director

CODE OF CONDUCT

Our aim is to provide a comfortable and supportive environment for all library users. We encourage you to read these code of conduct to maintain a safe and welcoming environment for reading, learning, studying, and collaborative working.

Code of Conduct

Reading room

STUDY SPACES

Study Rooms

There are more than 20 reservable study rooms for group work, often equipped with whiteboards.

Reserve a study room through the Virtual Library or by scanning the QR.

Note that reservations are scheduled in 30-minute intervals, with a maximum of 3 hours per day. Reservations may be made with 2 days of anticipation. Don't forget to check in when you have arrived.

Study Rooms

Extended Reality (XR) Room

Immerse yourself in technology and explore virtual reality, augmented reality and 360° simulations. A space designed for interactive learning and experimentation.

EQUIPMENT

More than 20 computers.

Headphones.

Calculators available for loan.

Request them at the Service Desk on the second floor.

Open Lab

Bring your ideas to life! The UANDES Innovation Lab offers 3D printing and technical support to manufacture and model innovative projects.

Reserve the lab by scanning the QR code.

Open Lab

Espacio Andino

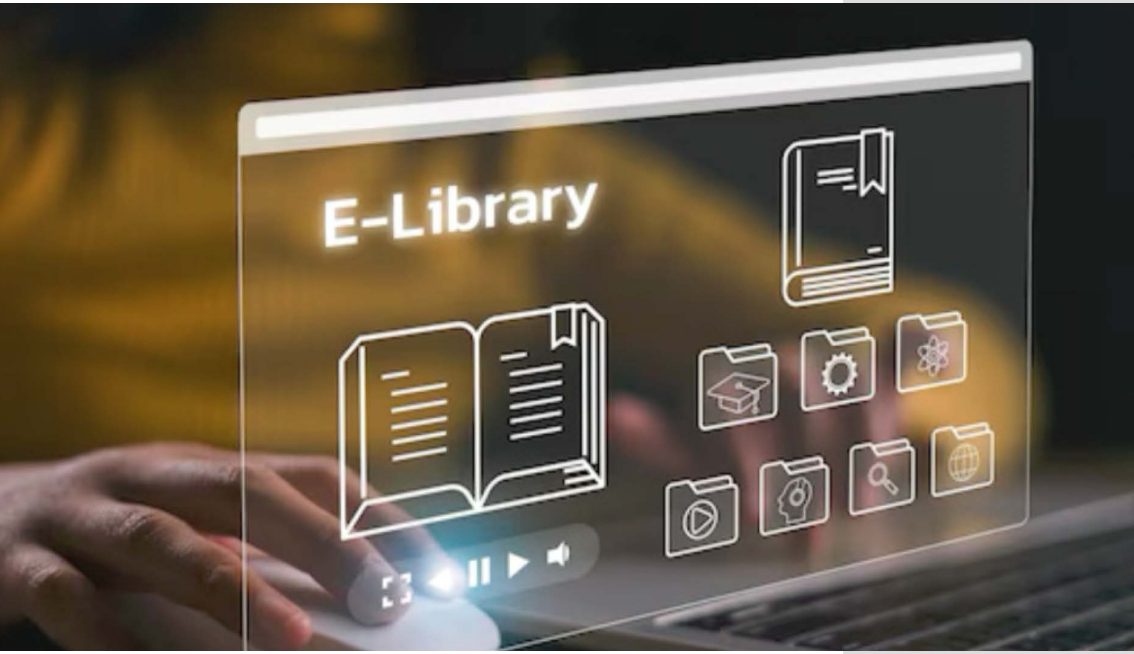
A place designed for you: a coworking space with a capacity for over 150 people. Ideal for studying, work in groups or simply take a break between classes.

EQUIPMENT

- 3D printers.
- AR/VR Headsets.
- 3D Scanner.

Request them in the Open Lab.

VIRTUAL LIBRARY



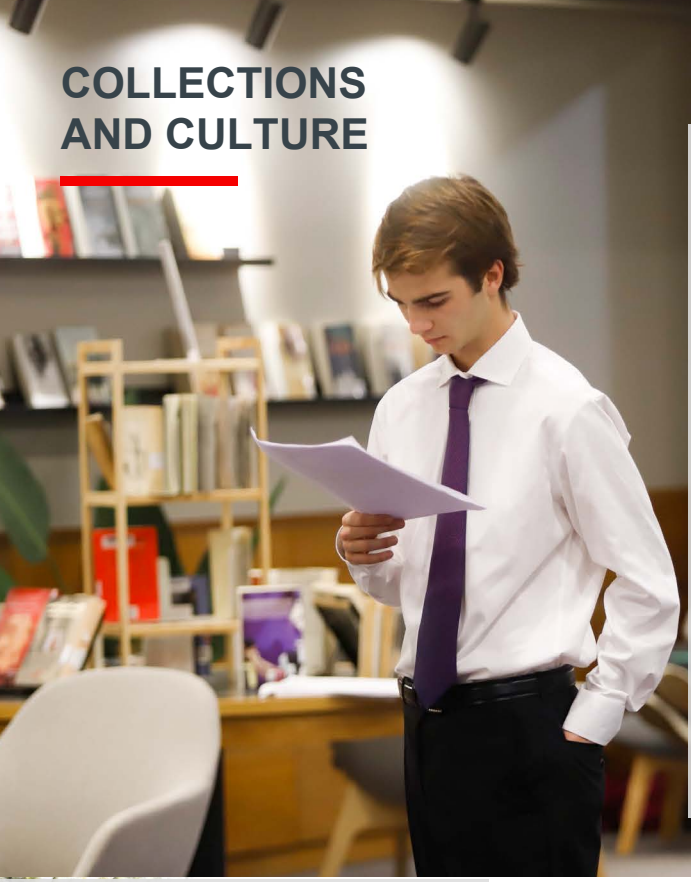
- Discover this online space for learning and exploring. Access databases like: Scopus, JSTOR, and ClinicalKey, online press, and over **450,000 e-books.**
- Do not miss out on our **Academic Portals** for Economics, Health, Law, Philosophy, Engineering, Social Sciences, and Communication, where you will quickly find everything you need.
- Discover the **Research Assistant** in our catalog, an AI tool that makes your searches easier and more intuitive.
- Remember, the **Virtual Librarian** is available 24/7 if you need additional help.

Virtual Library

Academic Portals

Scan the QR codes to get access and check out the tutorials available for you.

COLLECTIONS AND CULTURE



The library is a space to learn and connect.

Explore collections in Sciences, Law, Humanities, History, Recreational Literature, Children's and Young Adult Literature, and Historic and Valuable Books.

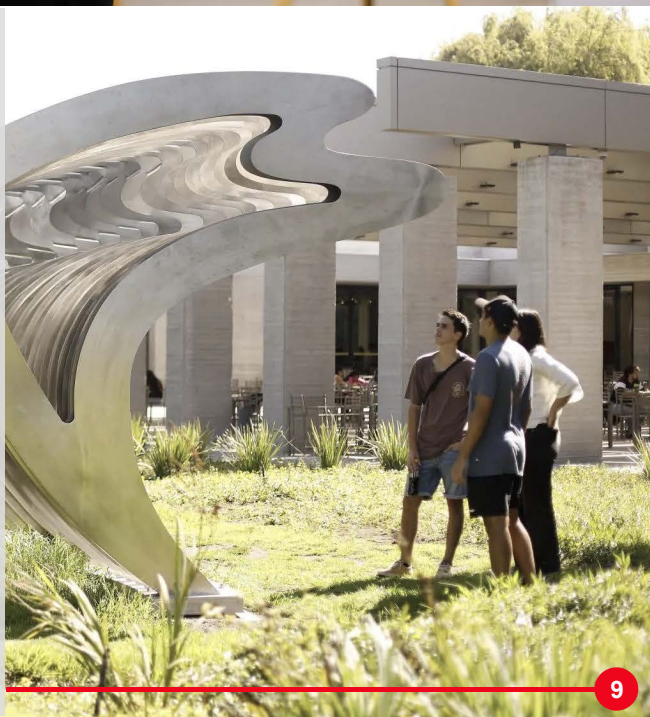
Request a loan at the Service Desks on each floor and renew a book loan online through the Virtual Library.

We invite you to participate in exhibitions and cultural events that transform the library into a meeting place full of inspiration.

Discover everything the library has to offer!

QUICK TIPS

- Always bring your UANDES ID Card to access the library.
- Don’t leave your belongings unattended.
- Easily renew loans through the Virtual Library.
- Remember to check in for your study room reservation.
- Return books on time to avoid fees.
- If you can't find what you are looking for, ask us…We are here to help!



LEARNING EXPERIENCE AND RESEARCH

Do you need help with your research?

We support you throughout the process:

- Find what you need with effective search strategies.
- Discover tools to simplify your research and learning process.
- Understand how to cite correctly and apply ethics in your projects.
- Boost your projects by using Artificial Intelligence.
- Share your research data and publish datasets.
- Create your ORCID profile to stand out as a researcher.
- Understand intellectual property and copyrights.
- Identify the best journals to publish your work.
- Improve your digital skills to research and learn more effectively.

OPEN SCIENCE

Open Science focuses on making knowledge accessible to everyone. Our team will help you to access research, resources, and tools so you can collaborate, share, and learn beyond academic boundaries.

If you are working on a research project, we also provide guidance on publishing your findings in an open and responsible manner that respects intellectual property rights. The goal is to connect science with society and create a real impact.

Additionally, we promote the **FAIR** principles to make your data:

Findable: easily discoverable for other researchers.

Accessible: once found, data should be readily available to those who need it.

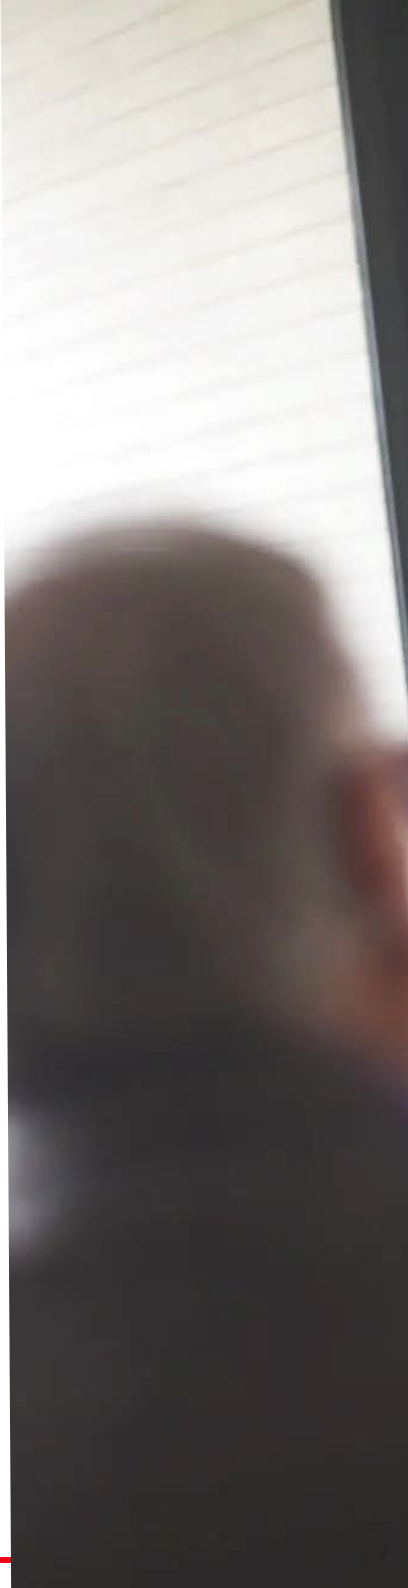
Interoperable: data should be compatible with other data and systems.

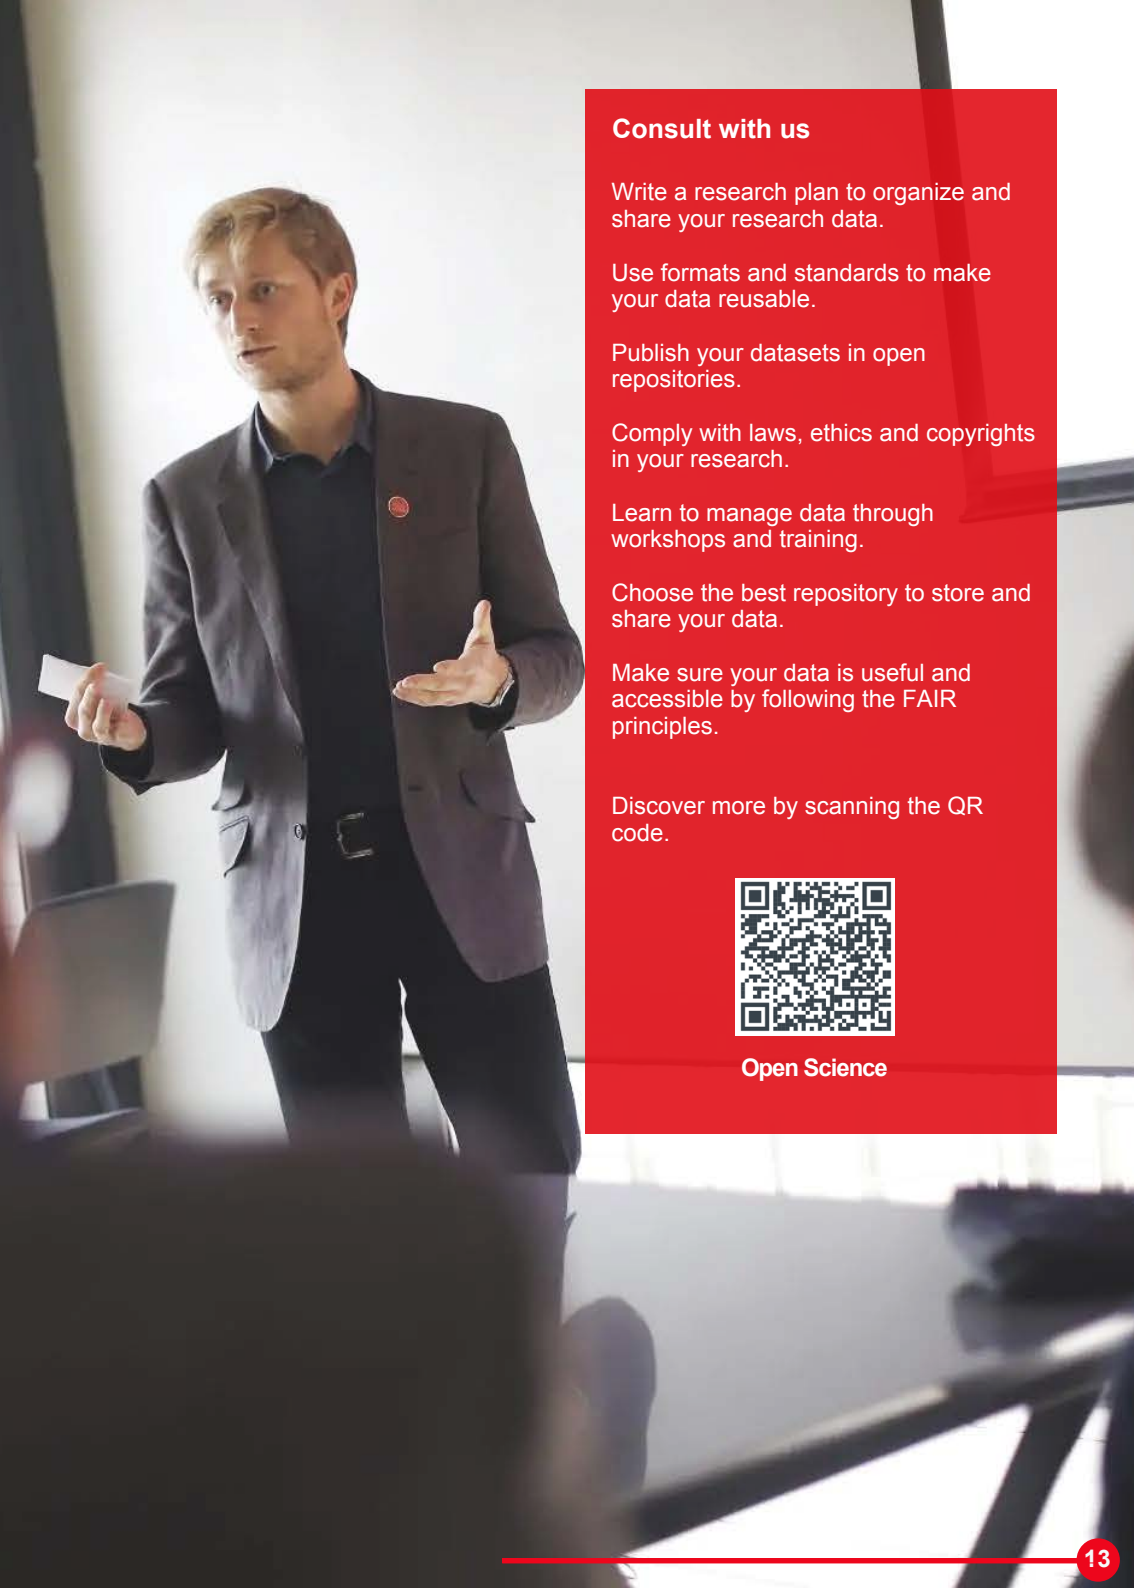
Reusable: data should be useful for new research and projects.

Get involved and be part of the change!

Research Data Repository

Academic Repository





Consult with us

Write a research plan to organize and share your research data.

Use formats and standards to make your data reusable.

Publish your datasets in open repositories.

Comply with laws, ethics and copyrights in your research.

Learn to manage data through workshops and training.

Choose the best repository to store and share your data.

Make sure your data is useful and accessible by following the FAIR principles.

Discover more by scanning the QR code.
